

# LONG-LIFE PTFE DIAPHRAGM

## ARO® Long-Life PTFE diaphragms keeps your pumps flowing

- Proven 2 time increase in service life over standard PTFE\*
- Made with uniquely formulated PTFE that provides greater flex life
- Same great chemical resistance as conventional PTFE
- Seamless replacement for your existing PTFE diaphragms

\*as measured by mean time between failure

## ARO® Long-Life PTFE Diaphragms are a superior choice over conventional diaphragms

ARO® engineering team is continuously evaluating advancements in material technology and apply it to our diaphragms. Over a six month side by side accelerated durability test, the Long-Life PTFE diaphragm demonstrated double the life over our current convectional PTFE baseline.

## Available in Compact and EXP Series Pumps which feature:

- Patented "Unstallable" unbalanced air valve design avoids stalling issues associated with other pumps.
- "Quick-Dump" exhaust valves divert cold exhaust air from ice-prone components, preventing freezing.
- Backed by a five-year warranty, we have the most reliable pump line on the market today.

Available in 1/2" - 3" Non-metallic models

Available in 1/2" - 3" Metallic models

See reverse side for additional information.

## Ordering

When ordering, indicate the letter "L" in position 8 for long-lasting PTFE diaphragm material

Position	1	2		3	4	5		6	7	8		9		10	11
Example:	PXXX	X	-	X	X	X	-	X	X	L	-	X	-	X	X
